Strategic report for the year ended 31 March 2023

The directors present their strategic report on the Company for the year ended 31 March 2023.

Principal activities

The Company's principal activity is the maintenance and refit of Royal Navy warships and submarines, the provision of engineering services to the Ministry of Defence ("MOD") in relation to the operation of Devonport Royal Dockyard, and the provision of a range of other technical and engineering services primarily to the MOD. The classes of business in which the Company operates are considered similar and are of an inter-related nature.

Business review

	2023	2022
	£000	£000
Revenue	1,124,317	903,754
Profit for the financial year	61,582	21,230

The MOD programme is operated under a contractual framework set out in the 15 year Terms of Business Agreement ("ToBA") which commenced in April 2010 and which continues to operate successfully. ToBA was revised in 2021 for updates in relation to the Future Maritime Support Programme ("FMSP"). A Long-Term Partnering Agreement ("LTPA") is currently under discussion with the MOD to replace ToBA for the next thirty years beyond 2025.

On 31 March 2023, the trade and assets of Babcock Marine (Clyde) Limited, a fellow subsidiary within the Babcock group, were acquired by the Company for a consideration amount of £34,027k. Details are disclosed in note 27. The operations and contracts of HMNB Clyde will be delivered by the Company from year commencing 1 April 2023.

During the year the Company continued to operate under the FMSP contract and participate in a wide range of initiatives that are intended to deliver key elements of the MOD's maritime support and change programme, delivering improvements in both cost effectiveness and performance across the joint industrial-MOD enterprise, whilst ensuring that important naval design, build, and support capabilities are retained.

The provision of fleet time maintenance to the nuclear-powered submarine flotilla based at Devonport continued during the year for the Trident Class submarines. In parallel the Deep Maintenance Period (Refuel) and life extension on a Vanguard Class submarine continued and subsequently concluded during Spring 2023. A reduction in company profit during the financial year was incurred against this contract due to extension of the in-dock period and emerging defect rectification beyond baseline scope. This reduction in profit was in addition to that incurred in 2022. No further profit reduction is expected in the financial year ending 31 March 2024 due to conclusion of the works.

During the year, the Company progressed design and construction work relating to the strategic infrastructure upgrades required to support the future deep maintenance of new and existing Naval platforms. This work will increase over the coming years through detailed design and construction. In particular, the Company is preparing to receive the first Astute class submarine for its maintenance period.

The Company is also providing engineering support to the future submarine programme for Dreadnought Class and the Astute Class replacement.

Business review (continued)

The Company also continues to provide fleet time support to the surface ship flotilla based at Devonport and to support a continuous programme of warship upkeep and upgrade projects, which continued under the FMSP contract. All have accommodated significant scope growth due to ageing and upgrade requirements. A number of other Fleet Time Support Periods on surface ships were also carried out.

Throughout the year the Company progressed a number of equipment-related 'through life' engineering support contracts with the MOD, using its established facilities and the engineering skill base of its employees. The Company also continued to manage the provision of submarine configuration management, in-service performance and other support services to the MOD across the entire UK nuclear-powered submarine fleet.

Striving for, and maintaining, an excellent Health and Safety record remains a fundamental objective across the Devonport site. The leadership of health and safety and environment has been strengthened with a blend of expertise from similar sites, and promoting internal talent. Improved safety culture, reporting of incidents and near misses, and baseline site safety standards are being rolled out across Devonport, in addition to ensuring compliance with relevant standards for operations undertaken. A programme of visible leadership is being led by the Board, Executive, and management at all levels. Zero harm and zero waste to land fill are key objectives.

The retirement benefit deficit relating to the DRDL defined benefit pension scheme of £76.9m has driven a reduction in net assets held at the balance sheet date from £467.5m at 31 March 2022 to £378.1m for the current year. The Company accounts for pension costs in accordance with IAS 19, and full details are provided within Note 25. Capital expenditure incurred during the year amounted to £35m reflecting the Company's continued commitment to investing in its infrastructure. Cash and cash equivalents have reduced by £143m to £0.2m due to the cash sweeping of BNP pooled bank accounts across the Group, offset by an increase in Trade and other receivables and payables due to the creation of intercompany sweep loans to reflect this process and record balances transferred.

Principal risks and uncertainties

The Company's ultimate controlling parent is Babcock International Group PLC. Risks are managed at group level in accordance with the risk management framework of Babcock International Group PLC. The principal risks and uncertainties of Babcock International Group PLC are discussed in its Annual Report for the year ended 31 March 2023, which does not form part of this report.

The management of the business and the execution of the Company's strategy are subject to various risks and uncertainties. These are managed through an operational review process, supplemented at group level by independent challenge and review by the Group Risk Manager and the Audit and Risk Committee.

The key risks and uncertainties affecting the Company, in line with previous years, are considered to relate to contractual performance, timely agreement of the infrastructure needs to support MOD programmes, the political and regulatory environment, and exposure to the defined benefit pension scheme. The Executive team of the Company meets with MOD at numerous forums throughout the year to address the risks identified, in order to ensure contractual performance and infrastructure needs are planned and executed to support the enterprise.

Principal risks and uncertainties (continued)

The directors manage this risk by meeting on a regular basis to gain assurance from the executive team that risks are being addressed in accordance with the strategic plan and nuclear licensed site obligations. Further discussion of these risks and uncertainties, in the context of the Group as a whole, are provided on pages 87 to 103 of the annual report of Babcock International Group PLC, which does not form part of this report.

Key performance indicators

The growth and performance of Marine and Nuclear, two of the sectors of Babcock International Group PLC, of which parts of both sectors are included in the Company, is discussed on pages 40 to 47 of the annual report of Babcock International Group PLC, which does not form part of this report.

We have identified the following financial and non-financial key performance indicators (KPIs) that reflect the internal benchmarks we use to measure the success of our business and strategy:

Revenue Growth	2023 24.4%	2022 11.0%	Increased activity and throughput in relation to Strategic Infrastructure projects at Devonport, mainly on 9 and 10 Docks to support Astute class submarines.
Operating Return on Revenue (ORR)	6.4%	2.3%	Driven by growth in relation to Engineering Services and Strategic Infrastructure contracts, offsetting loss relating to Submarines DMP(R) contract.
Order Book	£2,561m	£2,914m	Includes total value of signed contracts and prudent estimate of value of framework contracts, based on ongoing assessment of expected contract values.
Total injuries rate per 100,000 hours worked	0.22	1.16	Health and Safety is a core value for the Company. The data includes all reported injuries. Improved Safety culture rolled out across Devonport.

S172(1) statement and stakeholder engagement

This statement contains an overview of how the Directors have performed their duty to promote the success of the Company as set out in Section 172(1) of the Companies Act 2006. That section requires a director of the Company to have acted in a way that they consider, in good faith, would most likely promote the success of the Company for the benefit of the shareholders. In doing this, the director must have regard, amongst other matters, to:

- a) the likely consequences of any decision in the long term,
- b) the interests of the Company's employees,
- c) the need to foster the Company's business relationships with suppliers, customers, and others,
- d) the impact of the Company's operations on the community and the environment,
- e) the desirability of the Company maintaining a reputation for high standards of business conduct, and
- f) the need to act fairly between members of the Company.

Stakeholder engagement is managed in accordance with Group policies and procedures which are discussed on pages 56, 57 and 115 of the annual report of Babcock International Group PLC, which does not form part of this report. Depending on the matter under consideration the relevance of the different factors set out in s172(1) will vary. The Board does seek to balance the interests of its different stakeholders, but, where there are competing interests, not every decision the Board has made will result in a positive outcome for all our stakeholders. However, by considering key stakeholder groups and aligning our activities with our strategic plan, as well as the Company's culture and values, we aim to act fairly, transparently and in the best interests of the Company over the long term. Stakeholder engagement in relation to key stakeholder groups includes the following:

Customers

Why they matter to us

The future success of the Company is driven the long-term relationships with our customers. The Directors are committed to conducting business honestly, transparently and with integrity. Understanding the needs and challenges of our customers allows us to help them to succeed. We work in partnership with public and private customers across the globe, enabling them to deliver critical programmes and services, adding value to their operations. We seek to solve their challenges through excellent operational performance and the introduction of innovative solutions and technology to support their longer-term needs.

What matters to them

- Safety
- Operational excellence
- Innovation and expertise
- Reliability
- Value for money
- Collaboration
- Deep understanding of their needs, both now and in the future
- Sustainability performance and agenda

S172(1) statement and stakeholder engagement (continued)

Customers (continued)

How the Company engages

- Regular ongoing relationship engagement at all levels
- Contract negotiation and execution
- Strategic Partnership programme
- Collaboration on joint initiatives
- Attendance at key industry events
- Provision of information on sustainability goals

Investors

Why they matter to us

The support of our equity and debt investors and continued access to capital is vital to the long-term success of the Company. We work to ensure that we provide clear and transparent information to the market which allows investors and potential investors to make informed decisions, via market updates, information published on our website, appropriate access to management and an active Investor Relations and Treasury team.

What matters to them

- Shareholder value
- Financial and operational performance
- Strategy and business development
- Capital structure
- Dividend policy
- Transparency of communication
- Governance and management
- Sustainability strategy

Investors (continued)

How the Company engages

- Annual Report and Financial Statements
- Results materials and presentations
- Investor relations team
- Treasury team with banks and noteholders and credit rating agencies
- Dedicated investor section on Babcock website
- Chair engagement with top shareholders
- Consultation with large shareholders on remuneration policy
- Investor site visits
- Stock exchange announcements and press releases

S172(1) statement and stakeholder engagement (continued)

Suppliers

Why they matter to us

The Company requires an efficient and highly effective supply chain to support its business operations and strategy. This means the Directors need to foster trusted and collaborative relationships with suppliers who share our appetite to drive improvement through innovation and best practice. Our external supply chains are an important part of our performance and by working collaboratively with suppliers we can ensure continuity of supply, minimise risk and bring innovative solutions to our customers. These engagement activities form part of the Company's implementation of the Group-wide Procurement Strategy as described on pages 20- 21 and 83 - 85 of the annual report of Babcock International group PLC

What matters to them

- Good working relationships
- Access to opportunities
- Prompt payment and predictable supplier cash flows

How the Company engages

- Regular open and honest two-way communications
- Supplier Code of Conduct
- Supplier conferences, workshops and 'lunch and learn' sessions
- Supplier due diligence
- Involvement in Security supply chain development programme SC21

Regulators

Why they matter to us

We manage complex assets in highly regulated sectors: nuclear and defence. We are committed to providing safe and effective operations. We must maintain positive and constructive relationships with regulators to be able to operate, to help shape policy in our markets and to position for future opportunities.

What matters to them

- Regulations, policies and standards
- Governance and transparency
- Trust and ethics
- Safety and compliance of operations
- Sustainability
- Site-specific issues

How the Company engages

- Regular engagement (national, local and official level)
- Briefing on key issues
- Dedicated compliance teams
- Response to direct queries
- Co-ordinated safety improvement programmes

S172(1) statement and stakeholder engagement (continued)

Employees

Why they matter to us

Employee engagement is a primary focus for the Directors of the Company. We continue to strengthen our employee value proposition by enhancing our engagement and promoting an agile global workplace. We are committed to creating an inclusive and diverse organisation where employees can develop their full potential. We focus on developing and supporting a truly engaged workforce, living our principles and working on shared goals, united by our common Purpose. These engagement activities form part of the Company's implementation of the Group-wide People Strategy as described on pages 20 - 21 and 74 – 78 of the annual report of Babcock International group PLC.

What matters to them

- Remuneration and reward
- Professional development
- The Company's aims, goals, priorities and reputation
- Employee engagement
- Health, safety and wellbeing
- An empowering culture
- Inclusion and diversity
- Our ESG agenda
- Employee networks

How the Company engages

- Employee forums and meetings
- Global engagement platforms
- Weekly CEO and senior management vlogs
- Access to the CEO via a dedicated email
- Weekly global news round-up videos
- Regular internal updates
- Cascade briefings
- A dedicated onboarding app
- Apprentice and Graduate programmes
- Regular training
- Access to independent whistleblowing process
- Senior management and board visits
- Free confidential employee support helpline

Communities

Why they matter to us

We are committed to the communities in which we operate and the broader interests of the customers we serve. As good corporate citizens, we want to make a genuine difference by supporting our local communities both economically and socially; community engagement and social value creation is a key aspect of our ESG strategy.

S172(1) statement and stakeholder engagement (continued)

Communities (Continued)

To support our community, the Company engage with a number of external organisations to drive our social value agenda, supporting outreach programmes, STEM, volunteering initiatives, charitable donations/sponsorship, and social mobility programmes. We engage with and hold seats on the social mobility commission, local chambers of commerce, STEM community partnerships and sponsor the Armed Forces Day, and a number of city events throughout the year. We engage proactively with our employees, rail, and bus companies in our travel to work plan to encourage sustainable and safe travel. We have worked extensively with Plymouth City Council to enable the successful designation of Plymouth Freeport as part of the drive for levelling up. Our employees are active in the community through volunteering across a range of initiatives.

What matters to them

- Employment and economic contribution
- Health, safety and wellbeing
- Engagement in local education and STEM activities
- Sustainability and the local environment
- Support for armed forces community
- Community engagement

How the Company engages

- Sponsorship and donations
- Employee volunteering
- University partnerships
- STEM Ambassadors
- Employer of service leavers, veterans and reserves
- Engagement with local community programmes
- Engagement with local rail and bus companies to plan sustainable and safe travel to work
- Collaboration with Plymouth City Council, enabling designation of Plymouth as a freeport

Sustainability is an integral part of our corporate strategy and how we do business, and it underpins our corporate Purpose: to create a safe and secure world, together. We have done a lot in the past year to drive our sustainability programme across the Group, ensure progress towards our corporate commitments and deliver our five ESG priorities shown below.

- 1. We will reduce emissions and set science-based targets to get to net zero across our estate, assets, and operations by 2040.
- 2. We will integrate environmental sustainability into programme design to minimise waste and optimise resources.
- 3. We will ensure the safety and wellbeing of all our people.
- 4. We will make a positive difference to the communities we're proud to be part of and provide high-quality jobs that support local economies.
- 5. We will be a collaborative, trusted partner across the supply chain, helping to tackle common challenges.

S172(1) statement and stakeholder engagement (continued)

Climate action remains a key focus. Building on our Group wide climate-related risk management process from last year, which considered the following time horizons: short (present to 2030), medium (2030 to 2040), and long-term horizons (2040 to 2100). Sectors and regions considered the insight and recommendations from the KPMG climate-related risk assessment report and identified the immediate actions required in their five-year strategic plans to support corporate commitments. These included Net Zero, wider environmental targets, and to address key climate-related risks and opportunities. Further information is included on page 64 of the annual report of Babcock International Group PLC.

These activities form part of the Group-wide ESG Strategy as described on pages 58 to 86 of the annual report of Babcock International Group PLC, which does not form part of this report.

This report was approved by the board on 15 July 2024 and signed on its behalf by

J Gane Director

15 July 2024

Directors' report for the year ended 31 March 2023

The directors present their report and the audited financial statements of the Company for the year ended 31 March 2023.

Dividends

An interim dividend of £nil (2022: £nil) representing nil pence (2022: nil pence) per ordinary share was declared and paid in the year. No final dividend for the year ended 31 March 2023 is proposed by the directors (2022: £nil).

Directors

The directors who held office during the year and up to the date of signing the annual report were as follows:

S C Bowen R Foran

N M Fox (resigned on 20 October 2023)

J R Gane D J Kieran A D H Mathews G Simpson

A Spurr (resigned on 31 December 2023)

P Watson

The board is not aware of any contract of significance in relation to the Company in which any director has, or has had, a material interest.

Future developments

Under the FMSP contract, the Company will continue to focus on developing and implementing efficiency improvements across the site to deliver the committed savings in addition to ensuring contractual performance obligations are met or exceeded.

The Company continues its active engagement in a number of pan-industry alliances with the MOD that will determine long term arrangements for delivering and supporting current and future classes of surface warships and submarines, including design and assessment work on the planned successor deterrent submarine, new classes of surface warship, and modernisation of infrastructure to support future submarine and warship programmes.

We remain confident that the Company will continue to benefit from the strength of its relationship with the MOD.

The directors are confident about the future trading prospects of the Company due to its current order book and market opportunities.

Going concern

The Company's business activities, together with the factors likely to affect its future development and financial position, are set out within the Strategic Report. In addition, within the Strategic Report, there are details of the financial risks that the Directors have highlighted as significant to the business.

Registered number 02077752

Going concern (continued)

As the Company is part of a larger group it participates in the group's centralised treasury arrangements and so shares banking arrangements with its parents and fellow subsidiaries. The Company is in a net current liabilities position of £586.5m but is not expected to settle the intercompany amounts due to parent and group undertakings until the Company has sufficient liquidity to do so and the Company has received confirmation from the respective other group companies confirming this position. Additionally, the Company is expected to be in a position to obtain finance via intercompany loans to continue to operate for at least twelve months from when the financial statements are authorised for issue and the Company has received a letter of support from Babcock International Group PLC confirming this position. In completing this analysis, the Directors have considered the ability of Babcock International Group PLC to provide such finance.

The Directors are not aware of any material uncertainties related to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern. Thus, they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

Corporate governance statement

As a subsidiary of Babcock International Group PLC, the Company adheres to the broader governance of the Group and its policies. Babcock International Group PLC is listed on the London Stock Exchange and therefore complies with the UK Corporate Governance code. Directors of the Company apply the principles of the code in order to promote the purpose, values and future success of the Company.

Purpose and Principles

Our Purpose is to create a safe and secure world, together. This is why we exist as a business, and why we do what we do. It defines and underpins our new ways of working, how we create value for our shareholders and how we improve delivery for our customers. It informs the decisions we make and how we treat each other.

Our Purpose and Principles were formally launched last year to support the major cultural shift the business is making. They were developed with the help of our people and are designed to unite us as a Company, inspire our thinking, guide our actions, and encourage us to support each other in achieving our vision of a safe, strong, sustainable Babcock. See more about our approach to Inclusion and Diversity on page 75-78 of the annual report for Babcock International Group PLC, which does not form part of this report.

Board and Directors' responsibilities

The Directors' responsibilities statement is included on page 17.

Risk

We have a risk management framework and internal control environment to manage the risks that may undermine our ability to execute our strategy or more generally our business model. As part of the Group-wide turnaround plan, we have reviewed and improved the risk management framework so that it aligns with our new operating model. As a result, the framework is now standardised across the Group, and consistent, with clear risk ownership. In order to assist the Board and the Directors in understanding of principal risks, we have increased the granularity and quantification of each risk. In early FY23, we launched an updated Risk Management policy, which will enhance the guidance and requirements around our risk assessment and reporting process.

Corporate governance statement (continued)

Risk (continued)

Processes will be subject to ongoing continuous improvement. These activities form part of the Risk Management Strategy as described on pages 87 - 103 of the annual report of Babcock International Group PLC, which does not form part of this report.

Remuneration

The Babcock International Group PLC Remuneration Committee is responsible for reviewing the remuneration of employees of the Company, as well as alignment of incentives and rewards, and take these into account when setting the policy for executive remuneration. These activities form part of the Remuneration Strategy as described on pages 131 – 133 of the annual report of Babcock International Group PLC, which does not form part of this report.

Business relationships

The Company's approach to business relationships is detailed in the S172 statement on pages 6-10

Financial risk management

The applicable financial risk management policies and exposure to financial risks including price, credit liquidity, and cash flows are discussed in detail within the annual report of Babcock International Group PLC, which does not form part of this report.

Employment of disabled persons

Applications for employment by disabled persons are always fully considered, bearing in mind the respective aptitudes and abilities of the applicant concerned. In the event of members of staff becoming disabled, every effort is made to ensure that their employment with the Company continues, and the appropriate training is arranged. It is the policy of the Company that the training, career development and promotion of a disabled person should, as far as possible, be identical to that of a person who does not suffer from a disability.

Employee involvement

Consultation with employees or their representatives has continued at all levels, with the aim of ensuring that their views are taken into account when decisions are made that are likely to affect their interests, and that all employees are aware of the financial and economic performance of their business units and of the Company as a whole. Communication with all employees continues through the in-house newspaper and newsletters, briefing groups and the distribution of the annual report.

Safety policy

The Company recognises the promotion of health and safety at work as an important objective. It is Company policy to take steps to ensure, as far as reasonably practical, the health, safety and welfare of the employees of the Company.

Research and development

The Company commits resources to research and development to the extent management considers reasonable for the evolution and development of the business.

Energy and carbon reporting

The Company has taken advantage of the exemption granted under The Companies (Directors' Report) and Limited Liability Partnerships (Energy and Carbon Report) Regulations 2018 as this information is disclosed in the annual report for the year ended 31 March 2023 of its ultimate parent, Babcock International Group PLC, which does not form part of this report.

Engagement with suppliers and customers

Engagement with suppliers and customers has been considered in the Strategic Report on pages 6 - 8.

Employees

The Company is committed to equal opportunities and will not discriminate on the basis of disability, age, race, colour, ethnic origin, gender, marital status, religious or political beliefs or sexual orientation. We believe that only by encouraging applicants from the widest pool of talent possible, and then selecting the best candidate based on their ability to do the job, can we ensure we continue to deliver our best for our customers and safeguard the future of Babcock. For more information about our inclusion and diversity policy, please see pages 20-21 and 74-78 of the annual report of Babcock International Group PLC, which does not form part of this report.

Engagement with UK employees has been considered on page 9 of the Strategic Report.

Environment

The Company recognises its responsibility to minimise so far as reasonably possible the potential for adverse impacts from its operations. It aims to achieve the highest standards in environmental management and seek accreditation to appropriate standards where applicable.

The Company has developed and implemented an environmental policy to ensure that the impact of its activities on the environment is limited to the minimum practicable level.

Political Donations

The Company has made £nil (2022: £nil) contributions to political parties during the year.

Qualifying third party indemnity provisions

Babcock International Group PLC provides protections for directors of companies within the Group against personal financial exposure they may incur in their capacity as such. These include qualifying third-party indemnity provisions (as defined by Companies Act 2006) for the benefit of members of Babcock International Group PLC, including, where applicable, in their capacity as a director of the Company and other companies within the Group. These indemnities came into force in 2012 and remain in force.

Post balance sheet events

There have been no significant events since the balance sheet date which materially affect the position of the Company.

Statement of disclosure of information to independent auditors

Each director, as at the date of this report, has confirmed that in so far as they are aware there is no relevant audit information of which the Company's auditors are unaware, and they have taken all the steps that they ought to have taken as a director, in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of this information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

Appointment of auditors

At the 2023 Annual General meeting of Babcock International Group PLC, the Company's ultimate parent company, Deloitte LLP were reappointed as external auditor to the group. Pursuant to section 487 of the Companies Act 2006, the auditor will be deemed to be reappointed to the Company and Deloitte LLP will, therefore, continue in office.

This report was approved by the board on 15 July 2024 and signed on its behalf by

J Gane Director

15 July 2024

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including FRS 101 'Reduced Disclosure Framework'. Under company law, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any
 material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

OPINION

In our opinion the financial statements of Devonport Royal Dockyard Limited (the 'Company'):

- give a true and fair view of the state of the Company's affairs as at 31 March 2023 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 "Reduced Disclosure Framework"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the income statement;
- the statement of comprehensive income;
- the statement of financial position;
- · the statement of changes in equity;
- the related notes 1 to 28.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 "Reduced Disclosure Framework" (United Kingdom Generally Accepted Accounting Practice).

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

CONCLUSIONS RELATING TO GOING CONCERN

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Our evaluation of the directors' assessment of the company's ability to continue to adopt the going concern basis of accounting included:

- assessing the financing facilities including nature of facilities and repayment terms;
- assessing the assumptions used in the cashflow forecasts;
- assessing the willingness and ability to Babcock International Group Plc to provide financial support; and
- evaluating whether the disclosures in respect of going concern within the financial statements, meet the requirements of FRS 101.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's

Registered number 02077752

ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report

OTHER INFORMATION

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

EXTENT TO WHICH THE AUDIT WAS CONSIDERED CAPABLE OF DETECTING IRREGULARITIES. INCLUDING FRAUD

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the Company's industry and its control environment, and reviewed the Company's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management and the directors about their own identification and assessment of the risks of irregularities, including those that are specific to the company's business sector.

We obtained an understanding of the legal and regulatory frameworks that the Company operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the financial statements. These included the UK Companies Act and relevant tax legislation; and
- do not have a direct effect on the financial statements but compliance with which may be fundamental to the Company's ability to operate or to avoid a material penalty.

We discussed among the audit engagement team and relevant internal specialists, including tax, pension and IT specialists regarding the opportunities and incentives that may exist within the organisation for fraud and how and where fraud might occur in the financial statements.

As a result of performing the above, we identified the greatest potential for fraud or non-compliance with laws and regulations in the following areas, and our specific procedures performed to address them are described below:

Revenue and margin recognition on key long-term contracts with significant management judgment

- Obtaining an understanding of relevant manual and IT controls and project accounting processes which management have established to ensure that contracts are appropriately forecast, managed, challenged and accounted for;
- Making inquiries of contract project teams and other personnel to obtain an understanding of the performance of the project throughout the year and at year-end;
- Analysing historical contract performance and understanding the reason for in-year movements or changes;
- Testing the underlying calculations used in the contract assessments for accuracy and completeness, including the estimated costs to complete the contract and associated contingencies. We considered historical forecasting accuracy of costs, compared to similar programmes, and challenged future cost expectations with reference to those data points;
- Obtaining evidence and challenging management on the assumptions used to calculate future transformational savings;
- Examining external correspondence to assess the timeframe for delivery of the product or service and any judgements made in respect of these;
- Examining external evidence to assess contract status and estimation of variable consideration (including associated recoverability of contract balances), such as customer correspondence and for certain contracts meeting with the customer directly;

EXTENT TO WHICH THE AUDIT WAS CONSIDERED CAPABLE OF DETECTING IRREGULARITIES, INCLUDING FRAUD (CONTINUED)

- Enquiring with in-house and external legal counsel regarding contract related litigation and claims; and
- o Considering whether there were any indicators of management override of controls or bias in arriving at their reported position.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management and in-house legal counsel concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reading minutes of meetings of those charged with governance and reviewing internal audit reports.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

OPINIONS ON OTHER MATTERS PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION (CONTINUED)

We have nothing to report in respect of these matters.

USE OF OUR REPORT

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the financial statements

1 General information

Devonport Royal Dockyard Limited is a private company limited by shares, which is incorporated and domiciled in England the UK. The address of the registered Office is Devonport Royal Dockyard, Devonport, Plymouth, PL1 4SG.

Its ultimate controlling party is disclosed in note 28. The principal activity of the Company is set out in the Strategic Report on page 3. These financial statements, which have been prepared in accordance with the Companies Act 2006, are presented in pounds sterling and, unless stated otherwise, rounded to the nearest thousand.

2 Summary of Significant Account Policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented.

Basis of preparation

The Company meets the definition of a qualifying entity under Financial Reporting Standard 100 (FRS 100) issued by the Financial Reporting Council. Accordingly, these financial statements have been prepared in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' (FRS 101). Where relevant, equivalent disclosures have been given in the group accounts of Babcock International Group PLC. In preparing these financial statements, the Company applies the recognition and measurement requirements of International Financial Reporting Standards (IFRS) as adopted by the UK, but makes amendments where necessary in order to comply with the Companies Act 2006 and sets out below where advantage of the FRS 101 disclosure exemptions have been taken:

- a) Paragraphs 45(b) and 46 to 52 of IFRS 2, 'Share based payments'
- b) Paragraphs 91 to 99 of IFRS 13 'Fair value measurement' (disclosure of valuation techniques and inputs used for fair value measurement of assets and liabilities)
- c) The requirements of the second sentence of paragraph 110 and paragraphs 113(a), 114, 115, 118, 119(a) to (c), 120 to 127 and 129 of IFRS 15 Revenue from Contracts with Customers
- d) The requirements of paragraph 52, the second sentence of paragraph 89, and paragraphs 58, 90, 91 and 93 of IFRS 16 Leases
- e) Paragraph 38 of IAS 1, 'Presentation of financial statements' comparative information in respect of
- paragraph 79(a) (iv) of IAS 1 Share capital and reserves;
- paragraph 73(e) of IAS 16 Property, plant and equipment; and
- paragraph 118(e) of IAS 38 Intangible assets (reconciliations between the carrying amount at the beginning and end of the period)
- f) Paragraphs 10(d), 10(f), 16, 38(A-D), 40(A-D), 111 and 134 to 136 of IAS 1 Presentation of financial statements
- g) IAS 7, 'Statement of cash flows'
- h) Paragraph 30 and 31 of IAS 8 'Accounting policies, changes in accounting estimates and errors'
- i) Paragraph 17 of IAS 24, 'Related party transactions' in respect of key management compensation
- j) The requirements of IAS 24, 'Related party disclosures' to disclose related party transactions entered into between two or more members of a group.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

2 Summary of significant accounting policies (continued)

Basis of preparation (continued)

The Company intends to continue to prepare its financial statements in accordance with FRS 101.

The Company is exempt under Section 400 of the Companies Act 2006 from the requirement to prepare consolidated financial statements as it, and its subsidiary undertakings, are included by full consolidation in the consolidated financial statements of its ultimate parent, Babcock International Group PLC, a company registered in England and Wales. Accordingly, these financial statements present information about the Company as an individual and not as a group.

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of relevant financial assets and financial liabilities (including derivative instruments).

Adoption of new and revised standards

The following standards and amendments to IFRS became effective for the annual reporting period beginning on 1 April 2023 and did not have a material impact on the consolidated financial statements:

- Amendments to IAS 37, 'Provisions, contingent liabilities and contingent assets'. The amendments specify that the cost of fulfilling a contract comprises the costs that relate directly to the contract.
- Amendments to IAS 16, 'Property, plant and equipment'. The amendments prohibit deducting
 from the cost of property, plant and equipment any proceeds from selling items produced before
 that asset is available for use and clarifies the meaning of 'testing whether an asset is functioning
 properly'.
- Amendments to IFRS 3, 'Business Combinations'. The amendment relates to the identification of liabilities assumed and contingent assets acquired in a business combination.
- Annual improvements to IFRS 2018 2020 cycle

The Company has not early adopted any other amendment, standard or interpretation that has been issued but is not yet effective. It is expected that these standards and amendments will be adopted on the applicable effective date. The following new or amended IFRS accounting standards, amendments and interpretations not yet adopted are not expected to have a significant impact on the Company:

- IFRS 17, 'Insurance Contracts'
- Amendments to IAS 1, 'Presentation of Financial Statements'
- Amendments to IFRS 3, 'Business Combinations'
- Amendments to IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors'
- Amendments to IAS 12, 'Income Taxes'

All new standards and amendments are effective for accounting periods beginning on or after 1 January 2023.

Going concern

The Company's business activities, together with the factors likely to affect its future development and financial position, are set out within the Strategic Report. In addition, within the Directors' Report, there are details of the financial risks that the Directors have highlighted as significant to the business.

2 Summary of significant accounting policies (continued)

Going concern (continued)

As the Company is part of a larger group it participates in the group's centralised treasury arrangements and so shares banking arrangements with its parents and fellow subsidiaries. The Company is in a net current liabilities position of £586.5m but is not expected to settle the intercompany amounts due to parent and group undertakings until the Company has sufficient liquidity to do so and the Company has received confirmation from the respective other group companies confirming this position. Additionally, the Company is expected to be in a position to obtain finance via intercompany loans to continue to operate for at least twelve months from when the financial statements are authorised for issue and the Company has received a letter of support from Babcock International Group PLC confirming this position. In completing this analysis, the Directors have considered the ability of Babcock International Group PLC to provide such finance.

Given the above assessment, the Directors are not aware of any material uncertainties related to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern. Thus, they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

Revenue

Revenue recognised represents income derived from contracts with customers for the provision of goods and services in the ordinary course of the Company's activities. The Company recognises revenue in line with IFRS 15, Revenue from Contracts with Customers. IFRS 15 requires the identification of performance obligations in contracts, determination of contract price, allocation of the contract price to the performance obligations and recognition of revenue as performance obligations are satisfied.

(a) Performance obligations

Contracts are assessed to identify each promise to transfer either a distinct good or service or a series of distinct goods or services that are substantially the same and have the same pattern of transfer to the customer. Goods and services are distinct if the customer can benefit from them either on their own or together with other resources readily available to the customer and they are separately identifiable in the contract. The integrated output nature of many of the goods and services provided by the Company can result in contracts with one performance obligation.

(b) Determination and allocation of contract price to performance obligations

The contract price represents the amount of consideration which the Company expects to receive in exchange for delivering the promised goods or services to the customer. Variable consideration is included in the contract price on the most likely outcome basis but only to the extent that it is highly probable that it will not reverse in the future. Given the bespoke nature of many of the goods and services the Company provides, stand-alone selling prices are generally not observable and, in these circumstances, the Company allocates the contract price to performance obligations based on cost plus margin.

2 Summary of significant accounting policies (continued)

Revenue (continued)

(c) Revenue and profit recognition

Performance obligations are satisfied, and revenue recognised, as control of goods and services is transferred to the customer. Control can be transferred at a point in time or over time and the Company determines, for each performance obligation, whether it is satisfied over time or at a point in time.

Revenue recognised over time

Performance obligations are satisfied over time if any of the following criteria are satisfied:

- the customer simultaneously receives and consumes the benefits of the Company's performance as it performs; or
- the Company's performance does not create an asset with an alternative use to the Company and the Company has an enforceable right to payment for work done; or
- the Company's performance creates or enhances an asset controlled by the customer.

Typical performance obligations in the Company's contracts that are recognised over time include the delivery of services (such as maintenance, engineering and training), as the customer simultaneously receives and consumes the benefits of the Company's performance as it performs the services.

Revenue from the design, manufacture and enhancement of bespoke assets is also recognised over time, as the Company's performance does not create an asset with an alternative use to the Company and the Company has an enforceable right to payment for performance completed to date, being recovery of costs incurred in satisfying the performance obligation plus a reasonable profit margin.

Where the Company satisfies performance obligations over time, the Company primarily uses an input method to measure satisfaction of each performance obligation based on costs incurred compared to total estimated contract costs. For the majority of the Company's contracts, this is deemed to be the most appropriate method to measure the Company's effort in satisfying the applicable performance obligations. Costs are included in the measurement of progress towards satisfying the performance obligation to the extent that there is a direct relationship between the input and satisfaction of the performance obligation. For contracts where costs incurred is not deemed to be the most appropriate measure, the Company uses time elapsed to measure satisfaction of the performance obligation.

Under most of the Company's contracts, the customer pays in accordance with a pre-arranged payment schedule or once milestones have been met. If the value of the goods or services rendered by the Company exceed payments, a contract asset is recognised. If payments exceed the value of the goods or services rendered, a contract liability is recognised. See section (e) for further details on how contract assets and liabilities are recognised.

Revenue recognised at a point in time

If control of the goods or services is not transferred to the customer over time, then revenue is recognised at the point in time that control is transferred to the customer.

Point in time recognition mainly applies to sale of goods. Control typically transfers to the customer when the customer has legal title to the goods and this is usually coincident with delivery of the goods to the customer and right to payment by the Company.

Registered number 02077752

2 Summary of significant accounting policies (continued)

Revenue (continued)

Assessment of contract profitability

Profit is recognised to the extent that the final outcome on contracts can be reliably assessed. Contract outturn assessments are carried out on a contract-by-contract basis, including consideration of technical and other risks, by suitably qualified and experienced personnel and the assessments of all significant contracts are subject to review and challenge.

Estimating contract revenues can involve judgements around whether the Company will meet performance targets and earn incentives, as well as consideration as to whether it is necessary to constrain variable revenues to meet the highly probable not to significantly reverse test set out in paragraph 56 of IFRS 15. When considering variations, claims and contingencies, the Company analyses various factors including the contractual terms, status of negotiations with the customer and historical experience with that customer and with similar contracts. Estimates of costs include assessment of contract contingencies arising out of technical, commercial, operational and other risks. The assessments of all significant contract outturns are subject to review and challenge and estimation uncertainty is resolved on a contract-by-contract basis as contracts near the end of the project lifecycle. If a contract is deemed to be loss making the present obligation is recognised and measured as provisions.

(d) Costs of obtaining a contract

Costs to obtain a contract that would have been incurred regardless of whether the contract was won or lost are recognised as an expense when incurred.

Directly attributable costs to obtain a contract with a customer that the Company would not have incurred if the contract had not been won are recognised as an asset. These costs are capitalised as an asset after the point that it can be reliably expected that a contract will be obtained. The costs are capitalised as an asset in capitalised contract costs and amortised to cost of revenue on a typically straight-line basis consistent with the transfer to the customer of the goods and services to which the asset relates, provided that the contract is expected to result in future net cash inflows.

(e) Contract assets and liabilities

Contract assets represent amounts for which the Company has a conditional right to consideration in exchange for goods or services that the Company has transferred to the customer. Contract liabilities represent the obligation to transfer goods or services to a customer for which consideration has been received, or consideration is due, from the customer.

Payment terms are set out in the contract and reflect the timing and performance of service delivery. For substantially all contracts the payment terms are broadly in line with satisfaction of performance obligations, and therefore recognition of revenue, such that each contract has either a contract asset or contract liability, however these are not overly material in the context of the contract.

2 Summary of significant accounting policies (continued)

Revenue (continued)

(f) Determination of contract price

The contract price represents the amount of consideration which the Company expects to be entitled in exchange for delivering the promised goods or services to the customer. Contracts can include both fixed and variable consideration.

Inclusion of variable consideration in the contract price requires the exercise of judgement in relation to the amount to be received through unpriced contract variations and claims (see section (e) below for further details) and variable elements of existing contracts, such as performance-based penalties and incentives, and gain/pain share arrangements where cost under/over spends are shared with the customer. Elements of variable consideration are estimated at contract inception and at the end of each reporting period. Any required adjustment is made against the contract price in the period in which the adjustment occurs.

Variable consideration is estimated using either the expected value or the most likely amount only to the extent that it is highly probable that there will not be a reversal in the amount of cumulative revenue recognised once the underlying uncertainty is resolved. This judgement is made by suitably qualified and experienced personnel based on the contract terms, status of negotiations with customers and historical experience with customers and with similar contracts. As part of this judgement, variable consideration may be constrained until the uncertainty is resolved. In the case of unpriced variations, these will be constrained to the extent that such variable consideration is not considered highly probable Variable consideration may be included in the total transaction price or, in certain circumstances, may be allocated to a specific time period. Where variable consideration is allocated to a specific time period this will typically be in relation to performance related deductions

(g) Contract modifications Claims and variations

The Company's contracts are often amended for changes in the customers' requirements. Contract modifications can relate to changes in both contract scope and price arising in the ordinary course of delivering contracts, which are referred to as contract variations. Such variations may arise as a result of customer requests or instructions or from requests from the Company in response to matters arising during the delivery of contracts. For example, some contracts include the requirement to conduct surveys and to report on or to recommend additional work as required. Some contracts may require the Company to proceed with variations and to agree pricing subsequently. See further detail on accounting for contract modifications below.

Contract modifications can also refer to changes in price only, with no change in scope, where there is a difference of view or dispute in relation to interpretation of contracts.

These contract claims and variations are modifications as described in paragraph 18 of IFRS 15.

Accounting for contract modifications

The Company accounts for contract modifications in one of three ways, based on the facts and circumstances of the contract modification:

- 1. Prospectively, as an additional, separate contract:
- 2. Prospectively, as a termination of the existing contract and creation of a new contract; or
- 3. As part of the original contract using a cumulative catch-up.

2 Summary of significant accounting policies (continued)

Revenue (continued)

(g) Contract modifications (continued)

The Company recognises contract variations, which impact both scope and price, when they are approved in accordance with IFRS 15. The Company's preferred approach is to approve contract modifications by formal contract amendment. However, the approval of contract modifications often requires to be carried out at pace and other mechanisms, informed by established customer relationships and local working arrangements, can be used to achieve approval of contract modifications. In approving contract modifications in these circumstances, the Company considers the scope of the contract modification in the context of the contract scope and contract terms. Contract variations where the formal contract amendment has not been received but which are, in management's judgement, approved are accounted for as a contract modification in accordance with IFRS 15 paragraph 18. Revenue from these contract variations is treated as variable consideration and subject to constraint as outlined in section (b) above, until the pricing is agreed.

Contract claims are also considered to be contract modifications in accordance with IFRS 15, and revenue is subject to constraint as outlined in section (b).

Claims and variations which are not deemed to be contract modifications

Claims can also be raised by Babcock against third-party sub-contractors or suppliers to the Company. As these do not relate to contracts with customers, but rather relate to contracts with suppliers, they are not accounted for under IFRS 15. The Company's accounting policy is to account for such claims in accordance with the contingent asset guidance per IAS 37. Income in relation to these claims will only be recognised once it is virtually certain.

Intangible assets

Intangible assets are stated at cost less accumulated amortisation. The intangible assets are amortised on a straight-line basis as follows:

Computer software

Computer software includes software licences acquired plus the costs incurred in bringing the software into use and is shown at cost less accumulated amortisation and is amortised over its expected useful lives of between three and five years.

Property, plant and equipment

Property, plant and equipment (PPE) is shown at cost less subsequent depreciation and impairment, except for land, which is shown at cost less impairment. Cost includes expenditure that is directly attributable to the acquisition of the items. Depreciation is provided on a straight-line basis to write off the cost of PPE over the estimated useful lives to their estimated residual value (reassessed at each balance sheet date) at the following annual rates:

Freehold property 2% to 8%
Leasehold property Lease term
Plant and equipment 6.6% to 33.3%

PPE is reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the fixed asset may not be recoverable. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount exceeds the higher of an asset's fair value less cost to sell or value in use.

2 Summary of significant accounting policies (continued)

Investments

Fixed asset investments are stated at cost less accumulated impairment losses.

Investments in Joint Ventures

Investment in Joint venture have been accounted using Equity Method

Leases

The Company as lessee

For all leases in which the Company is a lessee (other than those meeting the criteria detailed below), the Company recognise a right of use asset and corresponding lease liability at commencement of the lease. The lease liability is the present value of future lease payments discounted at the rate implicit in the lease, if available, or the applicable incremental borrowing rate. The incremental borrowing rate is determined at lease inception based on a number of factors including asset type, lease currency and lease term. Lease payments include fixed payments and variable lease payments dependent on an index or rate, initially measured using the index or rate at the commencement date. The lease term reflects any extension or termination options that the Company is reasonably certain to exercise.

The lease liability is subsequently measured at amortised cost using the effective interest rate method, with interest on the lease liability being recognised as a finance expense in the income statement. The lease liability is remeasured, with a corresponding adjustment to the right of use asset, if there is a change in future lease payments, for example resulting from a rent review, change in a rate/index or change in the Company's assessment of whether it is reasonably certain to exercise an extension, termination or purchase option.

The right of use asset is initially recorded at cost, being equal to the lease liability, adjusted for any initial direct costs, lease payments made prior to commencement date, lease incentives received and any dilapidation costs. Depreciation of right of use assets is recognised as an expense in the income statement on a straight-line basis over the shorter of the asset's useful life or expected term of the lease.

Right of use assets arising from sale and leaseback transactions are measured at the proportion of the previous carrying amount of the asset that relates to the right of use retained by the Company. Gains arising on sale and leaseback transactions are recognised to the extent that they relate to the rights transferred to the buyer-lessor whilst losses arising on sale and leaseback transactions are recognised in full.

Right of use assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable, with the impairment expense being recognised in the income statement. Where a lease is terminated early, any termination fees or gain or loss relating to the release of right of use asset and lease obligation are recognised as a gain or loss through the income statement.

Payments in respect of short-term leases not exceeding 12 months in duration or low-value leases are expensed straight line to the income statement as permitted by IFRS 16, 'Leases'.

2 Summary of significant accounting policies (continued)

Leases (continued)

The Company as lessor (continued)

As a lessor, the Company classifies lessor arrangements as finance or operating leases. Leases are classified as finance leases when the terms of the lease transfer substantially all the risks and rewards

of ownership to the lessee. All other leases are classified as operating leases. All lessor arrangements in the Company meet the criteria for a finance lease.

Amounts due from lessees under a finance lease are held on the statement of financial position as a financial asset at an amount equal to the Company's net investment in the lease. The finance lease payments received are treated as finance income and a repayment of principal including initial direct costs. Finance income is allocated over the lease term, with the gross receivable being reviewed for impairment on a regular basis.

Inventory

Inventory is valued at the lower of cost and net realisable value, being the estimated selling price of the assets in the ordinary course of business less estimated costs of completion and costs of sale. In the case of finished goods and work in progress, cost comprises direct material and labour and an appropriate proportion of overheads. Spare parts that are consumed in the sale of goods or in the rendering of services are classified as inventory.

Contingent liabilities

A contingent liability is a possible obligation arising from past events whose existence will be confirmed only on the occurrence or non-occurrence of uncertain future events outside the Company's control, or a present obligation that is not recognised because it is not probable that an outflow of economic benefits will occur, or the value of such outflow cannot be measured reliably. A provision is recognised for any amounts that the Directors consider may become payable. See note 25 for details of contingent liabilities.

Provisions

A provision is recognised in the statement of financial position when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and the amount can be reliably estimated. If the effect is material, provisions are determined by discounting the expected future cash flows at an appropriate discount rate.

A provision for restructuring is recognised when the Company has approved a detailed and formal restructuring plan, and the restructuring has either commenced or has been publicly announced. Future operating costs are not provided for.

A provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. Onerous contract provisions are recognised after impairment of any assets directly related to the onerous contract. A provision for warranties is recognised on completed contracts and disposals when there is a realistic expectation of the Group incurring further costs.

2 Summary of significant accounting policies (continued)

Provisions (continued)

Provisions for onerous revenue contracts are recorded when it becomes probable that total remaining contract fulfilment costs will exceed total remaining revenue not yet recognised. Provisions for losses on contracts are recognised after impairment of any assets directly related to fulfilling the loss-making contract. Losses are determined on the basis of estimated results on completion of contracts and are updated regularly

A provision for the contractual maintenance, overhaul and repair requirements of right of use aircraft and specific associated aircraft components arising from return condition obligations in aircraft lease contracts is recognised as the obligation to perform contractual maintenance arises with each hour flown. Where lease contracts contain contractual penalties in the event that the Company returns leased aircraft in a condition that does not meet the contractual return condition obligation, the associated provision is measured at the lower of the restoration cost and the detriment penalty in the lease. When maintenance of a leased aircraft component is performed, if the component's remaining flying hours are greater than the return condition outlined in the lease contract then a leasehold improvement asset is recognised in proportion to the excess flying hours above the contractual return condition. Maintenance provisions are not recognised in respect of aircraft components which are maintained under Power-by-the-hour maintenance arrangements, instead the associated payments to the maintenance provider are expensed as incurred. Any additional payments made

to or received from maintenance providers at the conclusion of Power-by-the-hour maintenance arrangements are recognised as an expense or as income at the time at which they are incurred or received.

Cash and cash equivalents

Company cash and cash equivalents consist of cash at bank and cash in hand, together with short-term deposits with an original maturity of three months or less and money market funds.

Taxation

a) Current income tax

Current tax, including UK corporation tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the reporting date.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

2 Summary of significant accounting policies (continued)

Taxation (continued)

b) Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax basis of assets and liabilities and their carrying amounts in the consolidated financial statements. However, if the deferred income tax arises from initial recognition of an asset or liability in a transaction, other than a business combination, that at the time of the transaction affects neither accounting nor taxable profit or loss, it is not accounted for. Deferred income tax is determined using tax rates (and laws) that have been enacted, or substantively enacted, by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. Deferred tax assets are recognised where deferred tax liabilities exist and are expected to reverse in the same period as the deferred tax asset or in periods into which a loss arising from a deferred tax asset can be carried forward or back.

In the absence of sufficient deferred tax liabilities, deferred tax assets are recognised where it is probable that there will be future taxable profits from other sources against which a loss arising from the deferred tax asset can be offset. In assessing the availability of future profits, the Company uses profit forecasts consistent with those used for goodwill impairment testing. Profits forecast beyond the Company's five-year budget cycle are risk-weighted to reflect commercial uncertainties.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority.

Tax is recognised in the income statement except to the extent that it relates to items recognised directly in either other comprehensive income or in equity.

Trade and other receivables

Trade and other receivables are stated at their cost less provision for bad debts. A provision for bad debts is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables.

The Company writes off a trade receivable when there is objective evidence that the debtor is in significant financial difficulty and there is no realistic prospect of recovery.

Finance costs

Finance costs are recognised as an expense in the period in which they are incurred unless they are attributable to an asset under construction, in which case finance costs are capitalised.

Finance income

Finance income is recognised in the period to which it relates using the effective interest rate method.

2 Summary of significant accounting policies (continued)

Employee benefits

a) Pension obligations

The Company participates in a defined benefit scheme that shares risks between entities under common control. The defined benefit scheme defines the amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

The cost of providing benefits is determined using the projected unit credit actuarial valuation method. The total service cost and associated administration costs of the pension scheme are charged to operating profit. In addition, a retirement benefit interest charge on the net pension deficit is charged to the income statement as a finance cost. Actuarial gains and losses are recognised directly in equity through the statement of comprehensive income so that the Company's statement of financial position reflects the IAS 19 measurement of the scheme's surpluses or deficits at the statement of financial position date.

The fair value of plan assets is measured in accordance with FRS 101 fair value hierarchy and includes the use of appropriate valuation techniques.

The extent to which the Company recognises its share of the income statement charge, the assets and liabilities of the scheme, and the actuarial gain or loss is determined by the proportion of active members of the scheme that it employs.

The scheme's liability is the present value of the defined benefit obligation at the end of the reporting date less the fair value of the plan assets at the reporting date.

The Company also participates in a defined contribution scheme. Obligations for contributions to the defined contribution pension plan are recognised as an expense in the income statement.

b) Share based compensation

The Group operates equity-settled, share-based compensation plans of which the Company is a member. The economic cost of awarding shares and share options to employees is recognised as an expense in the income statement equivalent to the fair value of the benefit awarded. The fair value is determined by reference to option pricing models. The charge is recognised in the income statement over the vesting period of the award.

c) Holiday pay

Paid holidays are regarded as an employee benefit and as such are charged to the income statement as the benefits are earned.

2 Summary of significant accounting policies (continued)

Financial instruments

a) Financial assets and liabilities at amortised cost

Cash and cash equivalents, trade receivables, amounts due from related parties and other receivables are classified as financial assets held at amortised cost as they are held within a business model to collect contractual cash flows and these cash flows consist solely of payments of principal and interest on the principal amount outstanding. Trade receivables, contract assets and lease receivables include a provision for expected credit losses. The Company measures the provision at an amount equal to lifetime expected credit losses, estimated by reference to past experience and relevant forward-looking factors. For all other financial assets carried at amortised cost, including loans to joint ventures and associates and other receivables, the Company measures the provision at an amount equal to 12-month expected credit losses.

Trade and other payables, amounts due to related parties, other payables, accruals and bank loans and overdrafts are classified as financial liabilities held at amortised cost.

b) Derivative financial instruments

Derivatives are initially recognised at fair value on the date a derivative is entered into and are subsequently remeasured at fair value. The Company designates certain of the derivative instruments within its portfolio to be hedges of the fair value of recognised assets or liabilities or unrecognised firm commitments.

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the income statement, together with changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

For derivatives that qualify as cash flow hedges, fair value gains or losses are deferred in equity until the underlying transaction is recognised.

Fair value measurement

The fair value of an asset or liability is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the year-end date. Fair value measurements are used on a recurring basis except where used in the acquisition of assets and liabilities through a business combination.

The fair values of derivative financial instruments are determined by the use of valuation techniques based on assumptions that are supported by observable market prices or rates. The fair values of non-financial assets and liabilities are based on observable market prices or rates.

The carrying values of financial assets and liabilities which are not held at fair value in the Company balance sheet are assumed to approximate to fair value due to their short-term nature, with the exception of fixed rate bonds.

There have been no changes to the valuation techniques used during the year.

2 Summary of significant accounting policies (continued)

Dividends

Dividends are recognised as a liability in the Company's financial statements in the period in which they are approved. Interim dividends are recognised when paid.

Foreign currencies

a) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The financial statements are presented in Sterling, which is the Company's functional and presentation currency.

b) Transactions and balances

Foreign currency transactions are translated into the functional currency of the Company using the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the year-end exchange rates. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at exchange rates ruling at the reporting date of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

3 Critical accounting estimates and judgements

In the course of preparation of the financial statements, judgements and estimates have been made in applying the Company's accounting policies that have had a material effect on the amounts recognised in the financial statements. The application of the Company's accounting policies requires the use of estimates and the inherent uncertainty in certain forward-looking estimates may result in a material adjustment to the carrying amount of assets and liabilities in the next financial year. Critical accounting estimates are subject to continuing evaluation and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable in light of known circumstances. Critical accounting estimates and judgements in relation to these financial statements are considered below.

Critical accounting judgements

Critical accounting judgements, apart from those involving estimations, that are applied in the preparation of the consolidated financial statements are discussed below. Detail of the Company's key judgements involving estimates are included in the Key sources of estimation uncertainty section.

3 Critical accounting estimates and judgements (continued)

Revenue and profit recognition

A number of the Company's contracts include promises in relation to procurement activity undertaken on behalf of customers at low or nil margin, sub-contractor arrangements, and other pass-through costs. Management is required to exercise judgement on these revenue streams in considering whether the Company is acting as principal or agent. This is based on an assessment as to whether the Company controls the relevant goods or services under the performance obligations prior to transfer to customers. Factors that influence this judgement include the level of responsibility the Company has under the contract for the provision of the goods or services, the extent to which the Company is incentivised to fulfil orders on time and within budget, either through gain share arrangements or KPI deductions in relation to the other performance obligations within the contract, and the extent to which the Company exercises responsibility in determining the selling price of the goods and services. Taking all factors into consideration, the Company then comes to a judgement as to whether it acts as principal or agent on a performance obligation-by-performance obligation basis. Note that any changes in this judgement would not have a material impact on profit, although there may be a material impact to revenue and cost of revenue.

Key sources of estimation uncertainty

The key sources of estimation uncertainty at the reporting period end that may result in significant risk of material adjustment to the carrying amount of assets and liabilities within the next financial year are set out below:

Revenue and profit recognition

The Company's revenue recognition policies require management to make an estimate of the cost to complete for long-term contracts. Management estimates outturn costs on a contract-by-contract basis and estimates are carried out by suitably qualified and experienced personnel. Estimates of cost to complete include assessment of contract contingencies arising out of technical, commercial, operational and other risks. The assessments of all significant contract outturns are subject to review and challenge, and judgements and estimates are reviewed regularly throughout the contract life based on latest available information and adjustments are made where necessary. As contracts near completion, often less judgement is required to determine the expected outturn. One key contract for the Company includes a critical estimate around the realisation of future transformational savings. If these savings fail to be realised, this will impact on the margin for this contract and could result in a reduction to revenue and contract assets and therefore, profit.

Defined benefit pension scheme

The Company's defined benefit pension schemes are assessed annually in accordance with IAS 19 and the valuation of the defined benefit pension obligations is sensitive to the inflation and discount rate actuarial assumptions used. There is a range of possible values for the assumptions and small changes to the assumptions may have a significant impact on the valuation of the defined benefit pension obligations. In addition to the inflation and discount rate estimates, management is required to make an accounting judgement relating to the expected availability of future accounting surpluses under IFRIC 14. Further information on the key assumptions and sensitivities is included in note 24.

3 Critical accounting estimates and judgements (continued)

Inflation

The level to which the Company's revenue and cost for each contract will be impacted by inflation is a key accounting estimate, as this could cause the cost of contract delivery to be greater than was expected at the time of contracting. The Company's contracts are exposed to inflation due to rising employment costs, as well as increased costs of raw materials.

4 Revenue

Revenue is wholly attributable to the principal activities of the Company and arises as follows:

	2023	2022
	£000	£000
By area of activity:		
Sales of goods – transferred at a point in time	18,384	17,314
Provision of services – transferred over time	1,105,933	886,440
	1,124,317	903,754
All		

All revenue relates to sales in the United Kingdom.

5 Operating Profit

Operating profit is stated after charging/(crediting):	2023 £000	2022 £000
Depreciation of property, plant and equipment (note 12)	23,889	24,891
Amortisation of intangible assets (note 11)	917	1,303
Right of use depreciation (note 13)	2,286	2,482
Operating lease charges		
- Short term leases	11	11
Research and development	12,281	12,461
Foreign exchange (gain) / loss	(456)	9
Audit fees payable to the Company's auditors	699	699
Intellectual property royalty charge	16,273	13,465

Fees paid to the company's auditors, Deloitte LLP and its associates, for services other than statutory audit of the Company, are disclosed on a consolidated basis in the financial statements of the ultimate parent undertaking, Babcock International Group PLC

6 Finance income and costs

	2023 £000	2022 £000
Finance income:		
Bank interest	22	-
Retirement benefit interest (note 24)	3,179	624
Fair value movement on derivatives	-	1,121
Capitalised interest	_	69
	3,201	1,814
Finance costs:		
Bank interest	(192)	(2)
Fair value movement on derivatives	(573)	(28)
Lease interest	(609)	(512)
	(1,374)	(542)

7 Staff costs

The average monthly number of employees (including directors) employed by the Company during the year was as follows:

	2023 Number	2022 Number
By activity:		
Operations	7,201	7,039
Management and administration	7	9
	7,208	7,048
Their aggregate remuneration comprised:		
	2023	2022
	£000	£000
Wages and salaries	336,342	311,972
Social security costs	35,089	30,792
Pension costs – defined contribution plans (note 24)	15,796	13,705
Pension costs – defined benefit plans (note 24)	18,742	22,340
Share based payments (note 9)	815	989
	406,784	379,798

During the year, the average number of employees recharged to other Babcock entities was 11 (2022: 22). The total cost recharged included in the above was £926,053 (2022: £1,315,192).

8 Directors' emoluments

The emoluments of the directors, including pension contributions, paid by the Company in respect of services provided to this Company were as follows:

	2023 £000	2022 £000
Emoluments (including benefits in-kind)	1,524	889

During the year no (2022: no) directors remunerated by Devonport Royal Dockyard Limited exercised share options under long term incentive plans and no (2022: no) directors were entitled to receive share options under long term incentive plans.

Retirement benefits are accruing to two directors (2022: two) under the Group pension scheme and the executive pension scheme, both of which are defined benefit schemes. The defined benefit schemes were amalgamated together on 1 January 2002, as reported in the pension financial statements for the year ended 31 March 2002.

No retirement benefits are accruing under the Group defined contribution scheme (2022: no retirement benefits were accruing under the Group defined contribution scheme). The total value of Company contributions paid to the scheme during the year in respect of directors' qualifying services was £nil (2022: £nil).

Nine directors held office at some point during the year and up to date of signing the annual report. Except for six (2022: seven) directors, all of the directors of the Company are remunerated by other Babcock Group companies. It is not possible to make an accurate apportionment of these directors' emoluments relating to services provided to the Company and as such no disclosure of emoluments received by these directors has been made in these financial statements. No recharge is made for costs borne by the Company in relation to services performed by the directors in relation to other Babcock Group companies.

The above amounts for remuneration include the following in respect of the highest paid director:

	2023	2022
	£000	£000
Emoluments (including benefits in-kind but excluding pension		
contributions)	433	382
Defined benefit pension scheme:		
 Accrued pension at the end of the year 	-	-
 Accrued lump sum at the end of the year 	_	-

The highest paid director did not exercise shares under long term incentive plans (2022: the highest paid director did not exercise shares under long term incentive plans).

9 Share based payments

The charge to the income statement is based on the amount charged from Babcock International Group PLC. This charge represents an allocation of the total charge based on the proportion which relates to Devonport Royal Dockyard Limited. The total charge has been based on the assumptions below and is based on the binomial model as adjusted, allowing for a closed form numerical-integrated solution, which makes it analogous to the Monte Carlo simulations, including performance conditions. The detailed description of the plans below is included within the Remuneration Report in the Babcock International Group PLC Annual Report and Accounts, which does not form part of this report.

During the year the total charge relating to employee share-based payment plans was £0.8million (2022: £0.9 million) all of which related to equity-settled share-based payment transactions. After tax, the income statement charge was £0.67million (2022: £0.74 million).

The fair value per option granted and the assumptions used in the calculation are as follows:

Deferred Bonus Matching Plan (DBMP), Performance Share Plan (PSP) and Deferred Bonus Plan (DBP)

	1		, ·		`	,		,

2019 DBP	93,430	472.8	11.0%	3.0	100.0%	_	472.8	45.0%	13/06/19
2018 DBP	187,433	856.0	14.0%	4.0	100.0%	_	856.0	56.0%	13/06/18
2018 DBP	90,777	856.0	14.0%	3.0	100.0%	_	856.0	56.0%	13/06/18

Both the vesting period and the expected life of all DBMP and PSP awards is three years, but for the DBP it is two years, other than executive directors where the vesting period is three years. The holders of all awards receive dividends.

9 Share based payments (continued)

PSP awards made in August 2021 of 769,165 shares include performance criteria weighted to 50% against free cash flow targets and 50% against TSR performance.

PSP awards made in September 2021 of 2,407,553 shares were made via the use of restricted shares with a three-year vesting period. There are no performance conditions attached.

For PSP awards made in August 2022, 3,318,343 were made via the use of restricted shares with a three-year vesting period. There are no performance conditions attached. A further 403,255 awards were made where the performance criteria is 50% against free cash flow and 50% TSR.

There are no performance conditions attached to the DBP.

The expected volatility is based on historical volatility over the last one to three years. The expected life is the average expected period to exercise. The risk-free rate of return is the yield on zero-coupon government bonds of a term consistent with the assumed option life.

The Group also operates the Babcock Employee Share Plan which allows employees to contribute up to £150 per month to the fund, which then purchases shares on the open market on the employees' behalf. The Group provides matching shares, purchased on the open market, of one share for every 10 purchased by the employee. During the year the Group bought 140,340 matching shares (2022: 159,494 matching shares) at a cost of £0.4 million (2022: £0.5 million).

The Group also operates the Babcock Employee Share Plan International which reflects the structure of the UK Plan. During the year no matching shares were purchased on the open market (2022: 4,784 matching shares) and 1,055 matching shares vested (2022: 2,823 matching shares) leaving a balance of 5,918 matching shares (2022: 6,973 matching shares).

10 Tax

On 24 May 2021, the Finance Act 2021 was substantively enacted, increasing the main rate of UK corporation tax from 19% to 25% with effect from 1 April 2023. Deferred tax balances as at 31 March 2023 that are expected to reverse after 1 April 2023 have been calculated at 25%.

Total tax charge for the year

2,545

15,272

10 Tax (continued)

Deferred tax

Deferred tax assets and deferred tax liabilities have been offset if, and only if, there is a legally enforceable right in that jurisdiction to set off corporation tax assets and corporation tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same Taxation Authorities:

	31 March	31 March
	2023	2022
	£000	£000
Deferred tax asset	5,975	-
Deferred tax liability		(29,858)
	5,975	(29,858)

The movements in deferred tax assets and liabilities during the year are shown below.

At 1 April 2022	Tangible assets £000 (3,989)	Retirement benefit obligations £000 (25,917)	Tax losses £000	Other £000 48	Total £000 (29,858)
Income statement (debit)/credit	(9,262)	(5,973)	-	(36)	(15,271)
Tax credit to other comprehensive income/equity	-	51,115	-	(11)	51,104
At 31 March 2023	(13,251)	19,226	-	-	5,975
At 1 April 2021	(1,796)	(8,222)	-	35	(9,983)
Income statement (debit)/credit	(2,193)	(353)	-	2	(2,544)
Tax (debit)/credit to other comprehensive income/equity	-	(17,342)	-	11	(17,331)
At 31 March 2022	(3,989)	(25,917)	-	48	(29,858)

Deferred tax assets are recognised for pension liabilities accrued in the financial statements that are deductible for tax purposes only when paid. The directors are of the opinion that the Company will generate suitable taxable profits from which the future reversal of the timing difference can be deducted.

At 31 March 2022	6,931	2,069	9,000

Lease liabilities

Set out below are the carrying amounts of lease liabilities and the movements during the period:

	2023	2022
	£000	£000
At 1 April 2022	10,509	9,981
Additions	18,824	2,561
Disposals	(742)	(44)
Interest charged	609	512
Payments	(2,629)	(2,501)
At 31 March 2023	26,570	10,509

13 Leases (continued)

Discounted future minimum lease payments are as follows:

	2023	2022
	£000	£000
Within one year	2,763	1,833
In more than one year, but not more than five years	7,579	5,246
After five years	16,228	3,430
Carrying value of liability	26,570	10,509

The Company had total cash outflows for leases of £2,629,000 for the year ended 31 March 2023 (2022: £2,501,000).

The following are the amounts recognised in profit or loss:

	2023 £000	2022 £000
Expense relating to short-term leases	9	9
Expense relating to leases of low-value assets	2	2
	11	11

14 Investments

2022

	Shares in group undertakings £000	Shares in joint ventures £000	Total £000	Shares in group undertakings £000	Shares in joint ventures £000	Total £000
Carrying amount at 1 April and 31 March	-	1,453	1,453	-	2,052	2,052

2023

The investment represents 48% shareholding in Duqm Naval Dockyard. The directors believe that the carrying value of investments is supported by their underlying net assets.

15 Inventories

	2023 £000	2022 £000
Raw materials	16,425	13,504

There is no significant difference between the replacement cost of work in progress and finished goods and goods for resale and their carrying amount.

The cost of inventory recognised as an expense and included in 'cost of revenue' amounted to £63,268,737 (2022: £52,560,296).

16 Trade and other receivables

	2023	2022
	£000	£000
Amounts due after more than one year:		
Amounts due from group undertakings	800,875	522,021
	800,875	522,021

Amounts due from group undertakings comprise the following:

- Ten loans totalling £700,726,000 (2022: ten loans totalling £424,804,000) are repayable on demand, with no interest charge.
- All other amounts due from group undertakings are unsecured and repayable on demand.

	2023	2022
	£000	£000
Amounts falling due within one year:		
Trade receivables	16,064	18,943
Amounts recoverable on contracts	66,460	27,543
Other receivables	6,881	4,681
Amounts due from group undertakings	53,357	33,939
Intercompany trade receivables	23,821	14,940
Prepayments and accrued income	5,339	5,779
	171,921	105,825

Trade receivables are stated after provisions for impairment of £nil (2022: £nil).

Current intercompany trade receivables are expected to be settled in the Company's usual operating cycle of 12 months or less and relate to balances due in the normal course of business.

Amounts due from group undertakings represent intercompany loans.

Registered number 02077752

17 Trade and other payables

Amounts falling due within one year:	2023 £000	2022 £000
Trade creditors	60,895	35,766
Advance payments	78,369	56,967
Amounts owed to parent and group undertakings	445,108	359,060
Taxation and social security	7,132	9,882
Accruals	180,875	120,068
Corporation tax payable		-
	772,379	581,743
Amounts falling due after more than one year:		
	2023	2022
	£000	£000
Deferred income	304	425
	304	425

Amounts due to group undertakings are unsecured, interest free, have no fixed date of repayment and are repayable on demand.

Deferred income falling due after more than one year represents revenue deferred to meet the costs of renewing the Frigate Complex Roof.

The Company has access to the Babcock International Group PLC overdraft facility. The Company along with fellow group undertakings has provided cross-guarantees in relation to this facility.

18 Provisions

The Company had the following provisions during the year:

	Re-	and		
	organisation	Contracts	Total	
	£000	£000	£000	
At 1 April 2022	4,277	1,614	5,891	
Charged to the income statement	600	265	865	
Utilised in the year	(4,720)	-	(4,720)	
At 31 March 2023	157	1,879	2,036	

18 Provisions (continued)

Provisions have been analysed as current and non-current as follows:

	31 March 2023 £000	31 March 2022 £000
Current	422	5,891
Non-current	1,614	-
Total	2,036	5,891

The lease of the Keynsham office was terminated during the financial year. A provision of £1.6m is held in relation to building dilapidations. The remaining contract and warranties provision is held in respect of a loss provision on Equipment Solutions contracts. The reorganisation provision relates to severance costs following a restructure of the organisation.

19 Other financial assets and liabilities

Included in derivative financial instruments at fair value:

	2023		2022

Non-Current				
Forward FX contracts – cash flow hedges		-	(249)	
	537	(17)	681	(28)

The Company has taken advantage of the exemptions within FRS 101 not to disclose all IFRS 7 and IFRS 13 requirements, on the grounds that the Company itself is a wholly owned subsidiary of Babcock International Group PLC, for which the consolidated financial statements are publicly available with compliance to IFRS.

20 Share capital

Allotted, called up and fully paid	2023 £000	2022 £000
5,350,001 ordinary shares of £1 each (2022: 5,350,001) 1 special share of £1 each (2022: 1)	5,350	5,350
	5,350	5,350

The special share issued to the Secretary of State for Defence, has rights attaching that effectively give him the power, under certain extreme circumstances set out in the Company's Articles of Association, to overrule the votes of the ordinary shares. In all other respects both classes of shares rank pari passu.

21 Dividends

Dividends declared and paid were £nil (2022: £nil). There are no plans for a final dividend.

22 Guarantees and financial commitments

a) Capital Commitments

At 31 March 2023 the Company had capital commitments of £19,940,000 (2022: £19,564,000) for the purchase of tangible and intangible fixed assets.

b) Lease Commitments

At 31 March 2023 the Company had lease commitments of £nil for leases not yet commenced.

23 Related party disclosures

The Company has taken advantage of the exemptions within FRS 101 not to disclose transactions and balances with Babcock International Group PLC and its wholly owned subsidiaries, on the grounds that the Company itself is a wholly owned subsidiary of Babcock International Group PLC, for which the consolidated financial statements are publicly available.

For the year ended 31 March 2023, the Company had no transactions or balances outstanding with related companies that fall outside the FRS 101 exemption criteria.

24 Pension commitments

The Company accounts for pension costs in accordance with IAS 19. The Company contributes to a defined contribution scheme (the "Babcock International Group Defined Contribution Scheme") in respect of a number of its employees.

24 Pension commitments (continued)

The pension charge for the year represents contributions payable by the Company to the scheme. The amount included in creditors at the year-end in respect of this scheme was £51,418 (2022: £50,602).

The Company is also a contributing employer to a defined benefit pension scheme, the "Devonport Royal Dockyard Pension Scheme" for the benefit of its employees. The full details of this scheme are disclosed below.

The nature of the defined benefit scheme is that the employees contribute to the scheme with the employer paying the balance of the cost required. The contributions required and the assessment of the assets and liabilities that have accrued to members, and any deficit recovery payments required, are agreed by the participating employer with the trustees of the Devonport Royal Dockyard Pension Scheme who are advised by an independent, qualified actuary.

The key risks for the "Devonport Royal Dockyard Pension Scheme" relate primarily to longevity, the expected inflation rate in the future which impacts on pension increases, and indirectly salary increases, and the discount rate used to value the liabilities. The scheme has mitigated some of these risks by taking out longevity swaps in respect of a proportion of pensioners and their spouses, through a common investment committee. This has significantly hedged the interest rate and inflation risk through derivative instruments and introduced benefit changes impacting future service benefits which include capping of pensionable salaries, capping pension increases, increased normal retirement age in line with state pension ages and increased the level of member contributions.

	2023 £000	2022 £000
Babcock International Group Defined Contribution Scheme	15,796	13,705
	15,796	13,705

The scheme is prudently funded by payments to legally separate trustee-administered funds. The trustees of the scheme are required by law to act in the best interests of the scheme's members. In addition to determining future contribution requirements (with the agreement of the participating employers), the trustees are responsible for setting the scheme's investment strategy (subject to consultation). The scheme has an independent trustee and member nominated trustees. The scheme is subject to regulation under the funding regime set out in Part III of the Pensions Act 2004.

The total actuarial (loss)/gain recognised in the SOCI in these financial statements was:

	2023 £000	2022 £000
Devonport Royal Dockyard Pension Scheme	(212,005)	58,539

24 Pension commitments (continued)

a) Devonport Royal Dockyard Pension Scheme

The IAS 19 valuation has been updated at 31 March 2023 by an independent qualified actuary using revised assumptions that are consistent with the requirements of IAS 19. The date of the last full actuarial valuation was 31 March 2023. The major assumptions used for the IAS 19 valuation were:

Major assumptions	2023 %	2022 %
	70	70
Rate of increase in pensionable salaries	3.0	3.4
Rate of increase in pensions (past service)	2.8	3.2
Discount rate	4.8	2.7
Inflation rate (RPI) – year 1	6.9	3.7
Inflation rate (RPI) – thereafter	3.3	3.7
Inflation rate (CPI) – year 1	4.7	3.2
Inflation rate (CPI) - thereafter	2.8	3.2
Weighted average duration of cash flows (years)	13	16
Life expectancy from age 65 (male aged 65)	20.5	20.9
Life expectancy from age 65 (female aged 65)	22.5	20.9
Life expectancy from age 65 (male aged 45)	21.2	21.6
Life expectancy from age 65 (female aged 45)	23.5	21.6

The total (liability)/asset recognised on the statement of financial position in these financial statements was:

	2023 £000	2022 £000
Devonport Royal Dockyard Pension Scheme BIG Pension Scheme (note 27) Citrus Pension Scheme (note 27)	(76,903) 3,177 732	103,667
	(72,994)	103,667

24 Pension commitments (continued)

a) Devonport Royal Dockyard Pension Scheme (continued)

The Group's cash contribution rates payable to the scheme in 2023/24 are expected to be as follows:

Future service contribution rate	21.6%
Future service cash contributions	£12.1m
Deficit contributions	£18.6m
Additional longevity swap payments	£7.3m
Expected employer cash costs for 2023/24	£38.0m
Expected salary sacrifice contributions	£5.8m
Expected total employer contributions	£43.8m

The changes to the Company statement of financial position at March 2023 and the changes to the Company income statement for the year to March 2024, if the assumptions were sensitised by the amounts below, would be:

	Defined benefit obligations 2023 £000	Projected income statement 2024 £000
Initial assumptions	1,296,090	15,403
Discount rate assumptions increased by 0.5%	1,216,899	10,663
Discount rate assumptions decreased by 0.5%	1,384,354	19,859
Inflation rate assumptions increased by 0.5%	1,360,506	18,815
Inflation rate assumptions decreased by 0.5%	1,236,470	12,182
Total life expectancy increased by half a year	1,321,839	16,717
Total life expectancy decreased by half a year	1,272,108	14,180
Salary increase assumptions increased by 0.5%	1,305,551	15,939
Salary increase assumptions decreased by 0.5%	1,287,017	14,867

24 Pension commitments (continued)

a) Devonport Royal Dockyard Pension Scheme (continued)

The fair value of the assets, the present value of the liabilities and the expected rates of return of the scheme at the statement of financial position date of 31 March 2023 were:

Fair value of plan of assets/(liabilities)	2023	2022
	£000	£000
Equities	(3,296)	13,672
Property	149,040	179,008
High yield bonds/emerging market debt	-	-
Absolute return and multi strategy funds	1,429	1,525
Bonds	582,863	863,812
Matching assets	590,851	982,710
Active position on longevity swaps	(101,700)	(126,000)
Total assets	1,219,187	1,914,727
Present market value of liabilities – funded	(1,296,090)	(1,811,060)
Gross pension (deficit)/surplus	(76,903)	103,667

All the assets of the scheme are quoted except for the longevity swaps.

The scheme does not invest directly in assets or shares of Babcock International Group PLC. Investments have been valued for this purpose at fair value at the statement of financial position date. Equity investments and bonds are valued at bid price.

The longevity swaps have been valued in line with assumptions that are consistent with the requirements of IFRS 13 using Level 3 inputs. The key inputs to the valuation are the discount rate and mortality assumptions.

Benefits paid	(68,359)	(75,881)
Past service cost	-	
At 31 March	959,486	1,283,066

The surplus recognised in these financial statements, based on the Company's allocation of the total Babcock International Group PLC assets and liabilities for this scheme, was £3,177k (2022: £nil).

c) Clyde Citrus pension scheme

The IAS 19 valuation has been updated at 31 March 2023 by an independent qualified actuary using revised assumptions that are consistent with the requirements of IAS 19. Babcock Marine Clyde Limited was only participating company in Clyde Citrus pension scheme, the scheme is now a part of Devonport Royal Dockyard Limited as a result of sale of Trade and Assets since 31st March 2023. Hence comparatives from previous financial year have been excluded from below disclosures.

Registered number 02077752

24 Pension commitments (continued)

c) Clyde Citrus pension scheme (continued)

The major assumptions used for the IAS 19 valuation were:

Major assumptions	2023
	%
Rate of increase in pensionable salaries	3.0
Rate of increase in pensions (past service)	2.3
Discount rate	4.8
Inflation rate (RPI)	-
Inflation rate (RPI) – year 1	6.9
Inflation rate (RPI) – thereafter	3.3
Inflation rate (CPI)	-
Inflation rate (CPI) – year 1	4.7
Inflation rate (CPI) - thereafter	2.8
Weighted average duration of cash flows (years)	13
Total life expectancy for current pensioners currently aged 65 (years)	-
Life expectancy from age 65 (male aged 65)	19.1
Life expectancy from age 65 (female aged 65)	22.4
Total life expectancy for future pensioners currently aged 45 (years)	-
Life expectancy from age 65 (male aged 45)	20.1
Life expectancy from age 65 (female aged 45)	23.7

The Group's cash contribution rates payable to the scheme in 2023/24 are expected to be as follows:

Future service contribution rate	2.15%
Future service cash contributions	£1.1m
Deficit contributions	nil
Expected employer cash costs for 2023/24	£1.1m
Expected salary sacrifice contributions	0.5
Expected total employer contributions	£1.6m

The changes to the balance sheet at March 2023 and the changes to the income statement for the year to March 2024, if the assumptions were sensitised by the amounts below, would be:

	Defined benefit obligations	Projected income statement
	2023	2024
	£0	£0
Initial assumptions	1,754	733
Discount rate assumptions increased by 0.5%	1,550	641
